Fő tulajdonságok

Unrivalled practical and functional, yet still quite trendy: the gym bag takes in everything needed, either for city trips, sports activities or quick stops at the lake or beach. With a flick of the wrist you just sling it over your shoulders and are ready to go. It comes free of zippers, Velcros and other frills and only needs its two drawstrings for opening and closing. The black gym bag in authentic design can be further refined by silkscreening, flock print or embroideries. L44cm x W42cm, Volumen: 22L
