Build Your Brand

Fő tulajdonságok

Urban look with an extra dose of casualness – this noticeable dress employs a straight, oversized cut. While the area on the upper body is strongly reminiscent of a relaxed tee, from the hips on the dress is slit on the right, which heightens the wearing comfort and appeal at the same time. The dividing seam is at waist level and the shoulders are dropped. The dress can be further refined via embroidery or print options, if so desired.
