

TB1623 Camo Pull Over Windbreaker

Urban Classics

Fő tulajdonságok

The wind can be so annoying. In autumn or when you're by the sea, having a windbreaker is a good thing. The Camo Pull Over Windbreaker from URBAN CLASSICS keeps the windy weather away from you and looks pretty cool. The cuffs are elastic so the cold air has no chance to creep under your clothes. The hood saves your head. Thanks to the drawstring, the wind won't be able to blow it off your head again.
